

CHEMTANE

A formula that solves LPG fuel-related problems!

GD

Your Partner for Gas Solutions

 Chemtane V is an additive for LPG – LNG that improves mileage and lowers emissions through improved combustion

 Removes deposits that can hinder performance

 Cleans injectors, vaporizers and carburetors for peak performance

 Provides lubrication for upper cylinder, valves and rings

 Eliminates problems caused by impurities in fuel

 Removes water in tank and fuel system

 Gives ultimate performance in small and large engines

 Keeps fuel system clean and operating efficiently

**Chemtane V helps you get the most out of your
LPG vehicle!**

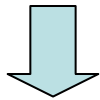

1. Deposit Formation (LPG Problems)

LPG fuel has no natural detergent properties

LPG is prone to producing deposits

It produces excess engine wear and lower mileage

2. Lack of lubrication

LPG is a dry gaseous fuel

No adequate engine lubrication

Excessive engine wear

Decreased performance and mileage

Increased emissions

Burned exhaust valves

Water collection in the fuel system
of LPG vehicles can lead to:

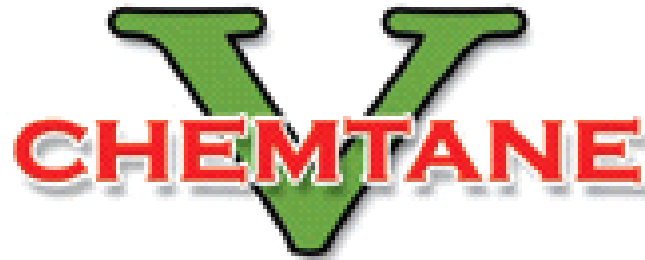

Freeze-ups in cold weather

System corrosion

Chemtane V automotive fuel additive

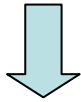

Chemtane V is a powerful formula designed to combat major LPG fuel problems through:

1. *Deposit Control*
2. *Lubrication*
3. *Moisture Elimination*
4. *Combustion Improvement*

1. Deposit Control

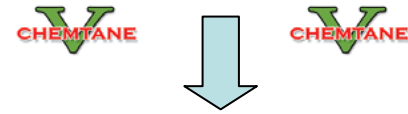

Standard LPG contains
unstable molecules
(alkenes and olefins)

They form long polymer
molecules (heavy ends)

Chemtane V contains
“surface active” molecules

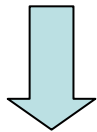

which attach to and
break up deposits

LPG is a dry gaseous fuel

No adequate engine lubrication

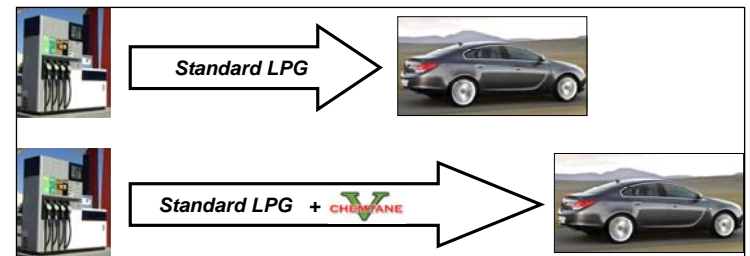

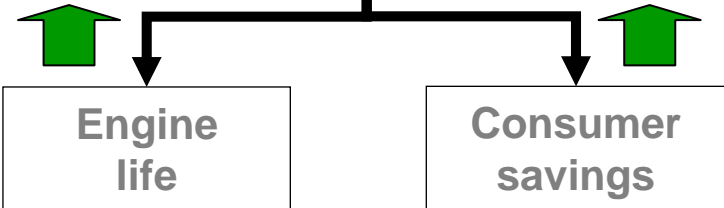

Excessive engine wear

 Chemtane V contains a powerful lubricant 

It prevents engine and other components wear

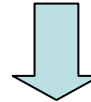

3. Moisture Elimination

4. Combustion Improvement

Chemtane V contains combustion enhancers

More hydrocarbon fuel burned

More heat energy

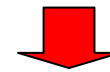

performance

mileage

Carbon
monoxide

Hydrocarbon
emissions

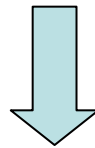

High quality ingredients in Chemtane V provide outstanding benefits

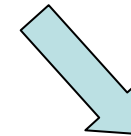

With Chemtane V automotive fuel additive you will:

Maximize your fuel efficiency

Lower your emissions

Increase the life of your vehicle

THANK YOU!
